Fifty Cents a Year

Horseshoe Science Success Depends on Three Essential Points

Frank E. Jackson Champion of The World.

There are three essential points to remember in pitching horseshoes.

They are the ability to judge your distance; the use of a full arm swing, and rating your speed so that the shoe will open as it nears the peg, causing it to hook onto the stake.

It is very essential that the shoe is open as it hooks into the stake, as this greatly increases the chances of making ringers.

A great many good pitchers can hit the upright with every throw of the shoe, but they never know how the shoe is going to hook into the stake.

Proficiency in pitching horseshoes can only be acquired by constant practice. The theory of pitching horseshoes is much the same as throwing a baseball.

Open Shoe Is The Big Secret.

In baseball the ball must break as it reaches the plate. In horseshoes the shoe must get in its effectiveness as it nears the peg. The shoe must be open. That is the big secret.

I use a long free swing with an easy grip on the shoe. I aim to make the shoe revolve twice thru the air from the time it leaves my hand until it reaches the peg.

In any sport the punch is the thing. In horseshoes the ringer carries the punch of the homerun in baseball.

Ringers tend to discourage your opponent.

Horseshoe Pitchers Plan For Big Year

AT HUNTINGTON, WEST VA.

"Horseshoe pitching is in for a big year, according to indications uncovered by Elmer Ottino, president of the league. All of last year's teams have been practicing faithfully and are in better form than ever. Some new aggregations are expected to open up this year. Schon-Stevenson, Banks Supply Company, Westinghouse Electric, Standard Ultramarine Company, Huntington Tumbler Works, Fesenmeiers, are some of the new comers who are organizing teams now.

National Horseshoe Tournament At Iowa State Fair.

PRIZES TOTALLING \$1,300 WILL BE AWARDED. FAIR ALSO LANDS MEETING.

Final negotiations for bringing to the Iowa state fair next August the national horseshoe pitching tournament and the conventions of the two big American pitching organizations were completed here at a joint meeting of officials of the National association, the Iowa state fair, state and county association.

According to decision reached at the conference yesterday, more than fifty trophies and over \$1,300 in prizes will be offered in the tournaments here. At least twenty-five states will send champions to the meet. California and Florida will be the two most distant participants to be presented. Among the most famous national stars who will be entered are: Frank Jackson of Kellerton, Ia., winner of the national tournament at the twin cities last summer; C. C. Davis of Columbus, O., winner of the mid-winter tournament in Florida last winter; Fred Brust of Columbus; George May of Akron, 1920 national champion, Tom Meagher of Kansas City, 17-year-old boy who placed second in the national tournament last year; Freddie Hay of Minneapolis, 14-year-old boy who placed fifth in the last national tournament; Hughie Palmer of Akron, aged 76 and industrial champion of America last year.

Held Under Group Plan.

The stakes in the main men's tournament will be 40 feet apart. Shoes must not exceed 2½ pounds in weight; they cannot be more than 7½ inches long, 7 inches wide; 3½ inches between heel calks, with not more than ¾ inches calks.

Pitching will be conducted under the group plan, because of the great number of entries expected. After the drawing for each meet has been held, the players will be divided into groups of eights. The contestants in each group will play each other one game. The two or three highest winners in each group will be placed in the finals. Sixteen players will compete against each other in the finals for the championship of the world, and prizes for the sixteen places. The number of games won and lost will decide the winners, and not by the number of points scored.

Officials for the tournament were also selected yesterday as follows: manager, B. G. Leighton of Minneapolis; referee, James McKeon of Des Moines; head scorer, Mrs. H. J. Pletscher of Des Moines, and court keeper, T. H. Fogarty of Des Moines.

The state championship tournament, as in former years, will be held at the state fair, commencing Monday Morning, Aug. 28, and ending Tuesday noon, Aug. 29. Over \$300 in prizes will be put up in the state contest.

The national meet will open at the state fair grounds Tuesday afternoon, Aug. 29.

Horseshoe.

MINNESOTA STATE TOURNAMENT.

Practically \$1,000.00 was appropriated by the Minnesota State Fair board, to its Horseshoe Pitching department last Friday, for the third annual state Horseshoe championships for men, women and boys under sixteen years of age. Of this amount a total of \$655.00 in prizes was allowed as follows: \$300.00 was allowed for expenses of running the department.

\$50.00 for eight medals in the boys championship meet.

\$190.00 for eight cash prizes and one gold medal, women's meet.

\$415.00 for eight cash prizes and one gold medal, men's meet.

This is the largest cash prize ever given in a State Tournament anywhere.

Mr. W. W. Stryright president of the Minnesota State Fair board, was appointed Supervisor of the Horseshoe Pitching department, while B. G. Leighton, Executive Secretary of the Minnesota State Horseshoe Pitchers' Ass'n., was appointed superintendent. At the present time, the department has eighteen official courts for men players and eight official courts for women players, at the State Fair grounds. Last season 144 contestants took part in two state and two national tournaments, held in connection with the Minnesota State Fair. A total of seventy-one prizes were awarded, amounting to \$2,508.00.

In co-operation with the Minnesota State Fair board, officials of the Minnesota State Horseshoe pitchers' association, are planning to organize a Horseshoe club in every county of the state. At least fifty clubs thruout the state will affiliate with the State association, which is a member of the National Horseshoe Pitchers' association. It is estimated that there are over 30,000 Horseshoe players in Minnesota. Officers for the ensuing year are as follows: Pres. R. F. Hall, Minneapolis; first vicepresident, T. H. Canfield, Hamline; second vicepresident, representative Hon. Chas. Werner of Aitkin; third vicepresident, Lena Yugend, St. Paul; secretary, E. L. Finney, St. Paul; Treasurer, Dr. C. A. Sotaaen, Windom Minn., and executive secretary B. G. Leighton, Minneapolis.

Chicago, Rock Island And Pacific Ry. Station, Des Moines, Iowa. Here is where you will arrive for the big Horseshoe Doings.

The New Castle Horseshoe Pitching Association will pitch under national rules and have already selected grounds. The following officers have been elected: J. H. Preston, president; B. F. Butler, secretary-treasurer; grounds committee, Eugene Johnson, J. W. Ward and Benjamin Campbell. A drive for membership will be launched soon.

Big Buckeye Event Again Awarded Stark-Co. Fair Association. CANTON, OHIO.

Horseshoe pitchers of Ohio will compete for the Buckeye championship in the annual tourney to be held Sept. 8-9 in conjunction with the Stark-co fair. The tourney will start at 9 a. m. Sept. 8, and on that day the semifinals will be recorded, and the 16 winners of that bracket will participate in the finals on Sept. 9. The 1921 Ohio tourney also was held with the Stark-co fair.

Twelve courts will be constructed near the entrance of the fairgrounds. The Ohio championship will come into possession of \$50 as a result of his work, \$200 being the total amount of cash awards from the winner's portion down to \$10 for eighth position. The decision to pitch the 1922 tourney in Canton was reached at a recent meeting here, presided over by O. L. Claypool of Canton, president of the Ohio association as well as of the Canton City league which is to start competition in May.

At the Canton meeting the following Ohio cities were represented: Canton, East Liverpool, Hicksville, Gallipolis, Akron, Zanesville, Cleveland, Cambridge, Elyria, Jackson, Lorain, Poland, Cuyahoga Falls, Wellington, Shelby, Wadsworth, Clyde, Painesville, Ashtabula and Youngstown. In addition to the Canton bid, Elyria and Columbus wanted the tourney, but the able manner in which Canton handled the event in 1921 brought a return engagement. The Ohio State Fair association made the bid for Columbus. Membership units of the Ohio association pay \$3 as yearly dues, and a \$1 for charter.

The meeting brought out the fact that all freak horseshoes will be ruled out of use, and all contests will conform strictly to the rules of the Ohio association. The equipment is to be brought under standard regulation. Arrangements have been made to charter at least 100 clubs in Ohio before the 1922 tourney comes to hand, and it is estimated that about 30,000 pitchers will hold membership in the state association. The present membership amount to 9,000. M. A. Stevens of Youngstown, W. W. Brown of Painesville, and J. E. Hannahs of East Liverpool were appointed second, third and fourth vice presidents respectively.

In addition to Pres. Claypool, Cantonian, some of the prominent officers and boosters of the sport who attended the state meeting here were

C. T. Short, treasurer, Elyria; A. L. Headlough, secretary, Akron; Vincent Stevens of Lancaster; James Curran of Lorain, and Frank Lovejoy of Elyria.

Wallis Beats Palmer In Horseshoe Match

AT AKRON, OHIO SUNDAY.
APRIL 16TH.

Clark Wallis defeated Hughey Palmer in six straight games at the west side courts horseshoe pitching Sunday afternoon. Wallis laid in five consecutive doubles in one game, a record for exhibition pitching in Akron.

The scores:

1—Wallis, 50 points, 22 ringers, 5 doubles, 48 throws; Palmer, 10 points, 11 ringers, 3 doubles, 48 throws.

2—Wallis, 50 points, 33 ringers, 11 doubles, 70 throws; Palmer, 26 points, 17 ringers, 11 doubles, 70 throws.

3—Wallis, 50 points, 26 ringers, 8 doubles, 54 throws; Palmer, 30 points, 19 ringers, 3 doubles, 54 throws.

4—Wallis, 5 points, 21 ringers, 5 doubles, 46 throws; Palmer 15 points, 9 ringers, 1 double, 46 throws.

5—Wallis, 50 points, 24 ringers, 8 doubles, 44 throws; Palmer, 22 points, 24 ringers, 1 double, 44 throws.

6—Wallis, 50 points, 26 ringers, 7 doubles, 70 throws; Palmer, 26 points, 15 ringers, 2 doubles, 70 throws.

The World's Champion Percentage

By E. M. Twynham.

On Sunday afternoon of August 24 1921 the horseshoe pitching fours of Akron, Ohio was given the opportunity of seeing the Champion Horseshoe pitcher of the World, Mr. Frank Jackson of Kellerton, Iowa, and their favorite and best player they had in their city, Mr. Geo. May, the Ex-National Horseshoe champion of 1920, America's most scientific Horseshoe Pitcher. These two ardent masters assembled at 3 o'clock on said afternoon in the special constructed arena at Goodyear Stadium and before a crowd of 3000 people played for the best six (50 point games) out of eleven. Mr. Wm. Weis a well known enthusiast of the game as well as authority, refereed the games played while the writer took great pleasure in scoring the

games upon his most scientific designed score sheet, showing the actual position of every shoe pitched during every game. This design of score sheet is now copywrited and Barn Golf the officially monthly magazine and organ of the National Horseshoe Pitchers Association of U. S. A. has the distribution of them, which are put up in a nice book form with 50 pages and 2 games to each page.

For the benefit of the readers, Barnyard Golf has compiled various dates on the above match games of which the following are few.

There were a total of 9 games played to decide the winner of said contest. These games were played under the official rules and regulations of the National Horseshoe Pitchers Association of U. S. A.

Mr. Mays winning six and losing three.

Each player pitched 564 shoes in the nine games.

Each player walked approximately 3½ miles in the nine games.

47 percent of May's shoes were ringers.

43½ percent of Jackson's shoes were ringers.

11½ percent of May's shoes were double ringers.

23½ percent of May's ringers were doubles.

8½ percent of Jackson's shoes pitched were double ringers.

21 percent of Jackson's ringers were doubles.

16 per cent of May's shoes landed more than 8 inches from the stake.

9 percent of Jackson's shoes landed more than 8 inches from the stake.

The most double ringers in succession were three each player having this amount. In the nine games May's scored 1062 points, Jackson scored 1042 points. Of May's 1062 points, 415 counted. Of Jackson's 1042 points, 248 counted. Of the 564 shoes pitched by May, 266 were ringers of which 63 were doubles.

Barnyard Golf will submit the actual reproduction showing the official position of every shoe for the entire games to any person desiring same for thirty cents in stamps, which will show any one how simple and convenient any person can tally the games by this method, it being the easiest and most simple process today as well as absolutely accurate and for 50 cents a neat book of score sheets with 50 sheets 100 games can be had.

Chicago, Rock Island And Pacific Ry. Station, Des Moines, Iowa.

Here is where you will arrive for the big Horseshoe Doings.

Railway Rates To Des Moines From The Following Cities.

Barnyard Golf has compiled a list of stations showing mileage to Des Moines and the approximate fares; also mileage to Denver and Colorado Springs, showing mileage and approximate round trip Summer Tourist fares. From a comparison it will be noted that one can go almost twice as far in mileage in a trip to Colorado, including both Denver and Colorado Springs, for from \$7.50 to \$12.50 more than the Des Moines round trip fare. Summer Tourist

tickets permit of stop-overs anywhere in both directions and one can go in advance of the Tournament, stopping over on the return trip, or proceed to Colorado after the Tournament, as desired. It is also permissible to use diverse routes, going thru Omaha, and returning via Kansas City, or vice versa.

A Pullman lower berth between Chicago and Des Moines will be \$3.75, and between Des Moines and Denver or Colorado Springs \$8.25.

HORSESHOE DOINGS AT CHICAGO, ILL.

Six of the finest horseshoe courts in Chicago are the property of the Edgewater Horseshoe Club located on Ravenswood Ave. This Club was organized in the fall of 1921 with 16 members, and have increased it to 30 real horseshoe pitchers. Some of which will enter the National tournament at Des Moines, the personal of the club are all business men, who are live wires when it comes to sportsman. A new departure in the horseshoe game was originated, by the appointment of a publicity man, as well as other qualified officials. This is a good cue for all horseshoe pitchers clubs of the country to take notice. As far back as 1918 the Secretary of the National Ass'n has boosted clubs to take action along the above lines to place the horseshoe game where it belongs. We will hear more of this club later.

HORSESHOE PITCHING ADOPTED AS A PART OF THE ATHLETIC PROGRAM IN THE PUBLIC SCHOOLS OF CHICAGO.

Mr. J. W. Bell of the Irvinpark Horseshoe Club has notified Barnyard Golf that the public schools of his whole school athletic meets. This is the first city to adopt the hoof game as a whole in the public schools. All you boosters take notice and see what can be done in your own city.

Toledo, O.

Courts for horseshoe pitching will be established in all city parks this summer, according to an announcement by J. W. Brown, recreation commissioner, and president of the Toledo Horseshoe Pitchers' association.

Minneapolis, Minn.

Royal Leaguers Start Year's Horseshoe Plans.

Royal League horseshoe teams started plans for the 1922 season at their first meeting. Allan Hay will preside over the league with W. B. Waterman first vice president; L. J. Nicolas, second vice president; A. T. Holland, secretary, and John Dahl, treasurer. Ten teams will form the league, including five teams from the Minneapolis council; two from the Mississippi branch and one each from the Meat Dealers, Flour City and Blue Bell councils. The league will start play for a Royal League cup May 1st with games to be played on 18 successive Monday nights.

Billy Crick, Noted Horseshoe

Pitcher Now Located in San Francisco, Calif.

In the golden state where horseshoe pitching holds forth, Billy Crick a Kansas product keeps the old game alive. The following are some of the best pitching ever made in California. Crick and Hayes of San Francisco. Crick and Dodds.

	Points	Ringers	D Rin.
Crick	50	22	4
Hayes	12	10	1
Crick	50	34	5
Hayes	18	12	0
Crick	50	20	4
Hayes	22	6	2

HORSESHOE PITCHING NOW HOLDS HIGH RANK AMONG POPULAR SPORTS?

Twenty Five Years Ago the Game Was Little Heard of, Players Were Target For Jokes, Now Thousands Play The Game.

Art L. Headlough of Akron, Ohio, Secretary, National Horseshoe Pitchers Ass'n.

Several years ago some few hundred Americans had to put up with a lot of good natured joshing because they played horseshoes. These pioneers had their beloved game, labelled (Barnyard Golf,) and a host of other names, supposed to be clever and funny. It was called an old man, and open amazement was expressed on every hand about just what pleasure was derived, from pitching an old horseshoe at a stake 40 feet distance. Today it is estimated that there are 300,000 persons pitching the game of horseshoes, and is spreading throughout the United States. The food of fun and ridicule poked at the game and its devotees a score of years ago has dwindled away to a trickle, — is practically dried up. The trials of the game has survived have proved its worth in a concining way that cannot be questioned.

Perhaps the underlying reason for the hold the game has is the fact no one grows too old to play, and no boy or girl old enough to take care of himself or herself is to young to learn the fundamentals and start to play horseshoes. There is no other form of athletics in the world of which this can truly be said. Baseball deservedly enjoys tremendous popularity, every school, College and Sand Lot has its team, and the ranks of professional baseball contain the cream of the ball playing talent of the country. Yet Hans Wagner the great Pittsburg shortstop of the past, after a career of professional baseball that caused comment through out the length and breadth of the land, because he came back year after year, finally had to quit the game at the age of 43. The idea of a horseshoe pitcher giving up his game at this age is ridiculous.

The criticism made of baseball is that too few play it, and that most of the followers are spectators, deriving nonphysical benefit from their devotion to the game, and the fortunes of this or that team they follow, it can be safely said that the percentage of the followers of horseshoe pitching who do not indulge in the game are on a par with the amount of alcohol in a soda fountain.

Contrast Hans Wagner's record professionally in the baseball world, with that of Frank E. Jackson Worlds Champion Horseshoe Pitcher, or Hughie Palmer, the Industrial Champ of the United States, Jackson at the age of 50 won the National Horseshoe Championship, while Hug-

hie Palmer at the age of 63 won the Industrial Title. The growth of the game in popularity is not by any means due to the fact that players do not have to abandon the game because of old or advancing age. Boys and Girls take to it with avidity. Freddy Hay, 15 years old of Minneapolis, Minn., won the 1921 State Championship, against some of the best players of the country. It has clearly established by hard test of experience that a horseshoe pitcher may be at the top of his game at the age of 50, this age may be a little extreme for the hard work of contesting in a tournament, perhaps where the event runs a week. Aside from the nervous strain and the mental concentration necessary to become a good horseshoe pitcher, the actual distance traveled between the stakes for several days will wear out the older players, this is where youth takes advantage of its greater endurance and ability to conquer fatigue.

The one advantage horseshoe pitching has over other sports, is that it cost little or nothing to equip yourself to play, and another advantage is that it creates a Community spirit, and is the one game where young and the old meet on equal basis. It has become a game of science as well as having the thrills that other games have. Just think of two horseshoe pitchers throwing a 2½ lb shoe a distance of 40 feet at a stake 8 inches above the ground and ringing it from ten to 20 times in succession, and today there are pitchers who can do this very thing. Horseshoe pitching is played by men in all walks of life, regardless of age, and standing. In the factory the Superintendent and other officials play

NOTICE TO SUBSCRIBERS.

Here's your chance to get a fine pair of horseshoes. For a Club of 20 Subscribers we will give a Pair Nickel Plated Horseshoes. For 10 Subscribers one pair Copper finished Horseshoes.
